Sub: USFL's Stance on National Anthem and Walk of Champions Ceremony

The USFL's mission is to foster Respect, Responsibility and Resilience while developing elite youth combat sport athletes. We have a long-standing tradition of beginning each event with the "Walk of Champions" where our youth athletes walk to the cage and stand in unity for our national anthem. These youth athletes represent all demographics and ethnicities within our nation and come together to make each other better athletes and citizens.

The USFL stands against racism and all forms of discrimination and believes our American flag and National anthem are symbols that best represent both the diversity and unity of our youth fighters. For these reasons we will continue with this important and meaningful tradition

Youth athletes who do not wish to take part of our Walk of Champions will be permitted to remain in the staging area and not participate, however the USFL will not provide anyone a platform to promote divisive statements or actions.
